Designated United States Depository.

Corner Room, Odd-Fellows' Hall TFFC P. HAUGHEY, Pres't. E. E. REXFORD, Cash

A BIG DAY WITH THE BANKS

Yesterday's Clearings Were Only a Little Short of One Million Dollars.

Grains Were Firmer, with Unimportant Changes in Quotations-Marked Increase of Activity in the Dry-Goods Trade.

MONEY AND STOCKS.

Indianapolis Clearings Yesterday Amounted

to Nearly a Million Dollars. The clearings yesterday mounted up to nearly a million, the exact figure being \$998.347.20; balances, \$163,717.05. The increase is due to the fact that tax-payers are now rushing in their payments before the trap falls and catches them as delinquents. The clearings for the corresponding day in 1891 amounted to \$728,368.48; balances, \$87,712.93.

NEW YORK QUOTATIONS. At New York, yesterday, money on call was easy at 1422 per cent., the last loan being made at 2, closing offered at 2 per

Prime mercantile paper, 34 @5 per cent. Sterling exchange was quiet but weak at \$4.86 for sixty-day bills and \$4.871/2 for demand.

The total sales of stocks were 229,954 shares, including the following: Atchison, 21,750; Chicago Gas, 3,000; Delaware & Hudson, \$,850; Lake Shore, 3,650; Louisville & Nashville, 12,650; Manhattan, 3,460; Northern Pacific preferred, 8,110; New England, 20,925; Reading, 34,000; Richmond & West Point, 8,985; St. Paul, 21,900; Union Pacific, 9,770; Western Union, 15,250.

The stock market yesterday displayed firm temper on a very moderate volume of business. The pressure upon the coalers abated for the time being. There was a slight flurry in Reading, which was one of the early weak points, but no marked change occurred either in it or its kindred securities. The purchases of St. Paul, Union Pacific, Erie, Louisville & Nashville and a few others made the temper of the market during the early morning. The increased deposits of the Richmond & West Point securities served to enhance the value of the preferred stock, and it rose from 54 to 58, but the common was no more than steadily held, exhibiting no feature whatever. The industrials were comparatively neglected, with the exception of Cordage, which was specially strong and active. The general list was higher at the opening on the London demand, and continued to improve slowly as long as that buying lasted, but later, under the influence of the bearish operations, fell away partially. The late strength in the coalers gave a firm temper to the trading in the whole list and the market finally closed quiet, but firm, generally at fractional gains over first prices. There were a number of material advances and Cordage rose 2; Union Pacific, 14, and Delaware, Hudson, New York Central, and Western Union, each, 1 per cent., while Lackawanna, Lake Shore, Reading and some others rose large fractions.
Railroad bonds were fairly active during

most of the session and the total transactions reached \$2,005,000, ont of which Atchison incomes furnished \$267,000. The movements in the list, however, were in all cases insignificant and prices are not materially changed from those of last week. Government bonds were dull and steady. State bonds were entirely neglected. Clos-

ing quotations were: Four per cent. reg116 |Louis. & Nash 7518 Four per ct. coup...116 L. & New Albany... 25 Pacific 6s of '95...*109 Missouri Pacific... 593 Atchison...... 3614 N. J. Figs-Layer, 13@16c P tb.

DRY GOODS. During the week just closed trade has picked up amazingly. An unusually large number of buyers has been coming in. Their selections were not confined to any special lines, but were general. Special drives are offering in domestic ginghams-dress styles in particular; also, in calicoes, brown and bleached sheetings. The demand for ticks, denims and cottonades continue brisk. More is doing in shirting checks, prices ranging extremely low. Domet flannels. in both woven and printed designs, adapted to the shirting and blazer trade, are doing well. A feature has been the opening of lines of cotton challies, pineapple cloths, India cashmeres and brocaded black satins. There has been an active demand for table damasks, napkins and towels. In fact all classes of housekeeping goods are selling

A Purdue Station Experiment, From Annual Report.

Very considerable attention has been given to the diseases of sugar beets. This work has been principally carried on by Miss Katherine E. Golden, who read a paper upon the subject in December last before the Indiana Academy of Sciences. The beet root is subject to scabbing. caused by the same organism that is mentioned above as being found upon potatoes. It does not, however, appear to serion ly affect the value of the roots for the purposes for which they are ordinarily grown. Some still less important ailments of the roots have been noted and examined. From an economic stand-point, far the most important affection of the beet root is one that decreases the sugar content from

a few per cent. down to 50 or even 75 per cent. below the normal. The disease is found to be quite wide spread, and holds a place of no inconsiderable importance in relation to profitable sugar beet industry. The disease is of bacterial nature, the microbes being found in great numbers in all affected beets. The organisms occur in all parts of the beet root, but the changes which they occasion do not alter the appearance of the tissues materially, although a person having the necessary experience may be able to detect the presence of the disease with much certainty upon cutting the root open. Much study has been given to the char-

The Daring Chicago Speculator Slugged the Wheat Market 5 Cents.

Packed Galleries of Women and Men Give Way to Enthusiasm, and Wildly Cheer the Man Who Cleared \$500,000 on the Day.

TRADING AT CHICAGO.

The May Future Rose to 851ge, but Was Beaten Down to 801gc at the Close. CHICAGO, April 11 .- The world seemed to turn its axis to-day for the sole benefit of one man-Edward Pardridge, of Chicago. News, worth to him bundreds of thousands, flashed in from London, from Washington, even from the far-away ports of the Black sea, and after a day of wildest excitement on 'Change the famous plunger, impassive as stone, stood on the floor of the Board of Trade receiving the frantic congratulations of his brokers, informing him that he was richer by at least a half a million dollars and that, acting for him, they had pounded down the price of wheat 5c on every bushel. His enemies who, it was said, had formed a sort of combination a few days ago to compass his ruin were not only made heavy losers and put to utter rout. The galleries of the trading hall throughout the day were jammed with sight-seers, including many prominent women, all eager to pick out of the jostling, yelling crowd below, the man whose extraordinary gamble was causing all the turmoil. Pardridge's manner was much calmer than Saturday, and it was evident, judging from the expression of those keen gray eyes, that his plans were more settled and better formulated. The scene during the latter part of the session was the most exciting that has been witnessed in many a day. From 85 ac May wheat dropped by big jumps to 80½c, and finally closed at 80½c. This is 2¾c below the close Saturday night. Pardridge was the heaviest buyer and seller, and apparently must have made a pot of money out of his scalping deals. During the final moments the excitement was at such a pitch that the spectators in the galleries losing all control of their feelings, shouted with the brokers at every slump in the

HOW THE BULLS RAN. The first disappointment to the bulls was the cables reporting the course of the foreign markets. New York and St. Louis operators sold heavily, while there was also a large amount of local longs who seemed to despair. Under concentrated seiling there was an irregular break of 3c on May. The disappointment in the visible supply statement also proved a weakening factor. Early it was thought there would be a decrease of haif a million bushels, but when the figures were complete it really showed a decrease of 141,000 bushels. This completely unnerved the bulls and there was a quick collapse.

The price of May wheat started strong at 84c bid, and with some excitement rose to 8516c; then broke and during the last fifteen minutes of the session fell to 803sc. or thereabout at the close. A reported London failure had a marked influence. Then a rumor was circulated that Russia's prohibitory movement would be removed and there was some mention made of the anti-option bill being favorably reported to Congress, from the committee. Bradstreets' report of the world's available supply being 143,000,000 bushels excess against 99,000,000 bushels a year ago was also made use of by the bears, helping the decline.
"How do you feel Mr. Pardridge?" asked a reporter of the bold trader after the pan-

demonium at the wind up. "Lovely; lovely," was the laughing answer, accompanied by a merry twinkle of The corn market was not active after the first hour. There was good support even when wheat was demoralized. The opening was strong with everything else on the floor. There was an advance of about 40, putting the May %c over the close Saturday. The selling which followed, helped on by elevator men, together with the break in wheat, simply put the price back to the Saturday figure. The movement to this market continues light. Receipts

were but 142 cars. Oats advanced early with wheat and corn, but weakened later on with those cereals and closed about steady at Saturday's figures. It was a dull day in the provision pit. Fluctuations were over a narrow range,

and in the end prices were slightly lower for pork and no higher for lard and ribs than at the end of Saturday's session. Cash sales of 100,000 bushels oramary No. 2 spring wheat were reported here to-day at 400 over the price for May, and 10,000 bushels hard spring at 212c premium. The estimated receipts for to-morrow are: Wheat, 85 cars; corn, 250 cars; oats, 190 cars, and 16,000 head of hogs. Shippers were bidding 2c on wheat to Buffalo, while vessel men were holding out for 24c. A large fleet was on the market. The leading futures ranged as follows:

Figures Showing the Quantity in Sight in the United States on Saturday.

NEW YORK, April 11 .- The visible supply of grain on Saturday, April 9, as compiled by the New York Produce Exchange, was as follows: Wheat, 41,178,000 bu, an increase of 150,000; corn, 10,888,000 bu, a decrease of 651,000; oats, 3,223,000 bu, a decrease of 469,000; rye, 1,496,000 bu, a decrease of 147,000; barley, 790,000 bu, a decrease of 129,-

The Foreign Grain Trade. LONDON, April 11.-The Mark Lane Express, in its weekly review of the British grain trade, says: English wheats have steadied at \$2s. Holders are not willing to sell at this low price. Foreign wheats are a shade firmer on improved German inquiry, but there is small prospect of values advancing, owing to enormous stocks and the influx of arrivais. The weekly imports of wheat and flour since September have averaged 437,000 quarters, against 362,-000 quarters weekly during the preceding serial year. The chief increase was from Atlantic ports, amounting to 221,000 quarters this year, against 79,792 quarters last season. Corn is in turn dearer; barley and oats are dull; beans and peas are 3d cheaper; lineed and rape seed have each risen 6d; cotton-seed has advanced 2s 6d per ton. At to-day's market free buying for the continent stiffened values. English wheats

were in good demand, and prices advanced is for all sorts; foreign wheats were 6d better; holders of American flour ask 1s more, but the asked price was not often obtained. Holders of English flour did a good business at a rise of 6d; flat corn was 6d dearer; round corn was dull; bariey was firmer; all oats were 6d dearer.

TRADE IN GENERAL,

Quotations at St. Louis, Philadelphia, Balti-

more, Cincinnati and Other Points. ST. LOUIS, April 11. - Flour weak. Wheat opened 1c higher, but soon became very unsettled, fluctuating rapidly and rather wildly, and closed weak 142018c below Saturday. May ranged 8340 87%c, and closed at 842c: July, 794c. and closed at 79%c. Corn-Cash higher, at 364c. Options higher early, but declined and closed 46c below Saturday; May closed at 35%c; July, 36c. Oats higher early, but fell off and closed %c under Saturday; cash maintained its advance at 30%c; May closed at 30c. Rye and Barley nominal. Bran-No sales. Hay dull; prairie, \$6.50@9.50; timothy, \$10@13. Flaxseed steady at 9512c. Corn-meal steady at \$1.85. Whisky quiet at \$1.18. Bagging. 64 @8c. Iron cotton ties, \$1.20@1.25.
